

# CURRICULUM VITAE

**NAME** STELIOS SOURMELAKIS  
**ADDRESS** SKALIDI 17, CHANIA  
**TELEPHONE** 6971670155  
**EMAIL ADDRESS** [ssourmelakis@gmail.com](mailto:ssourmelakis@gmail.com)

## **FUTURE GOALS**

At the present stage, my main goal is to complete my training as an engine cadet on LNG ships in order to develop rapidly in the field of shipping, later taking the position of First Engineer. In the future, I intend to pursue a related master's degree in Greece or even in abroad, on LNG, LPG ships, since my goals are always connected to the field of commercial ships, and especially to the part of the engine, engine room. In particular, my passion for research and organization on engine, production systems is what I would like to characterize the form of my work as I am intrigued by any dynamic and progress that could arise through a process that would be under my responsibility. LNG ships something that can only be achieved through the upcoming voyages in a depth of time to calculate I am very competitive and more than capable in the specific industry. As well as to immediately complete sea service in order to develop to the maximum in the Naval hierarchy. This fact does not negate the cosmopolitan character of the specific profession, the different lifestyle and the acquaintance with other cultures that a sailor must come into contact with and cooperate. All of the above were decisive for my conscious decision to travel immediately and indeed with one of the best companies in Greece and worldwide, yours.
